Explanatory Note

In accordance with the Rules for the Credentials Committee, and the Addendum to the Guidelines and Procedures of the Conference Resolutions, this resolution sets out recommendations for accreditation for authorities to participate in the international conference with their appropriate classification. Where an authority has a title in a national language this is given in brackets (where known to the Committee).

The Romanian Ombudsman was accredited to the conference in 2002. However, a new authority has taken over data protection supervisory responsibilities from the national Ombudsman. Hence, the Romanian Ombudsman will cease to be accredited upon the accreditation of the new authority.
